Abstract

In this paper, we show how to calculate the end of time date with our knowledge of AT Math and the Bible. The end date is November 9th, 2023. The world began according to the Jews in October 3763 BCE.

Keywords: 7 Cycle of time; end date; end times; armageddon; eschatology

Introduction

In this paper, we provide the calculations showing that the end date is November 9th, 2023. It is derived from our knowledge of Scripture and AT Math. We begin with Pi.

$$\pi=22/7$$

$$222/27=215=2(5)(3) = 2Et$$

222/215=27=128=u \bar{v} =universal vector for a 1 x 8 x 22 Ellipsoid

$$215/27=28=256=2t=21/E \text{ GMP } E=-1.25; t=0.8$$

$$2Et=u\bar{v}-2t$$

$$2Et+2t=u\bar{v}$$

$$Et \text{ Ln } 2+t \text{ Ln } 2=128$$

$$Et+t=128/\text{Ln } 2=184.66$$

$$E=1/t$$

$$E=t$$

$$E^2+E-184.66=0$$

$$E=[-1\pm\sqrt{(1^2-4(1)(-184.66))}]/2(1)$$

$$=[-1\pm 2.719]/2$$

$$=[-1\pm e^1]/2$$

$$=131$$

$$=[1\pm et]/2$$

$$=[1\pm\sqrt{5}]/2$$

$$=1.618; -0.618$$

$$\pm\sqrt{5}=et$$

$$+\sqrt{5}=et$$

$$t=\text{Ln} (\sqrt{5})=0.8047\approx 81=1/E$$

$$E=M=1/81=0.012345679$$

And,

$$2Et+2t=u\bar{v}=128=27$$

$$Et \text{ Ln } 2+t \text{ Ln } 2=7 \text{ Ln } 2$$

$$Et+t=7$$

$$t(E+1)=7$$

$$1/E(E+1)=7$$

$$1+t=7$$

$$t=6$$

$$E=1/t=1/6=0.1666$$

From AT Math:

$$E^2+E-2=t$$

$$0.1666^2+0.1666-2=t$$

$$t=180^\circ=\pi$$

I expect the final day to be November 9,2023. This is 9-11. And

it is 22 years after September 11, 2001. 22 as we've seen is the fullness of time = $\pi=22/7$. Daniel 12:11-12 tells us that the Mass will be suppressed. November 9, 2023 is 1335 days past March 15, 2020. The date Pope Francis suppressed the Perpetual Sacrifice (the Mass) due to COVID-19. The first year according to the Jews is 3763 BC.

$$3761+2023 +1=5785 \sim 1 \text{ rad}=E$$

$$=1/\sqrt{3}=1/t=E$$

$$(\pi-1) = 2141.59$$

$$5785/2.14159=270.1 \sim e^1$$

My birthday is February 11, 2023. That is 2.70 days before November 19, 2023.

$$E=1/t=1/271=e^{-1}$$

Feast of St Bernard of Clairvaux August 20, 2023.

$$0.271 \times 30 \text{ days /month}=81.3 \text{ days.}$$

November 9, 2023-81.3 days =August 20th, 2023. St Bernard is said to be involved in the End Days.

In the Catholic Church, November 9th, 2023 is the Feast of St John Lateran. The Basilica of St John Lateran is the Popes Church.

Conclusion

The end date is November 9th, 2023. The next major dates to watch are February 11, 2023 (270 days remaining); August 20th, 2023 (1290 days remaining, likely nuclear explosion), and September 5th 2023 (66 evil days remaining).
