As we are well into the Last Days, we see that Chain is poised to become the world's next superpower with the USA on its way out. What happened to the USA?

I think the decline and fall of the US was due mainly to moral corruption and greed. We have corruption in business, the professions, politics, and sports etc. Underlying moral corruption is a believe that it is every man or woman for themselves. JF Kennedy proposed at the beginnings of the loss of innocence, "Don't ask what your country can do for you. Instead, ask what you can do for your country!" It is the simple question: Are we all in it together, or is it every man for himself? Of course, this is selfishness. We people compete, it is good to bring out the best in a country. But when they cheat it brings out the worst. Citizens have the feeling or why should I be a law-abiding sucker when the rest are cheating at life?

Take Washington politics for example. Who is more corrupt that Donald Trump? It goes back some time to where his win at all costs became the norm. Think about Richard Nixon. Win at all costs. He thought he was above the law. Ordinary citizens become cynical. The system starts to unravel. Trump said that he was going to drain the swamp. It is a swamp, but Trump made it worse. Powerful lobbyists are said to control Washington Politicians. And it is all for the sake of greed. Washington spending is out of control. They spend more than they are taking in. That is like a sick gambler; he doesn't know when to stop spending. The little guy can't see why he pays so much in taxes while the rich go free. In Business, we have characters such as Geoff Bezos. Amazon is one of the biggest companies in the world, yet somehow paid zero in taxes.

The Police are corrupt. They treat the average citizen as he were a criminal. It's worse depending upon the color of your skin. Police have to face a job every day where the next person you pull over may haul out a gun on you. The police become cynical and even more corrupt. They see professional athletes making hundreds of millions of dollars for playing a boys game such as football or

baseball. A lot of the athletes such as Britnay Grinder are on drugs. The black population in the US is stereotypically committing crimes -on drugs. The mafia get rich on crime and drug trafficking. The police rarely touch them. They after the little guy not wearing his seat belt. What about the crimes of gangs and the Mafia?

One in three black American males s involved in the US penal system-either in hail, on parole or awaiting sentencing. No wonder the police beat up young black men. They see it every day. Is the US a nation under Law and under God? Most of the country is on illegal drugs. This is a crime. Young people have no hope of living a long, fulfilling life. The example was set by the hippies. The US sees a lot of drug trafficking across is southern border. Immigrants are destroying the good ol' USA. Immigrants used to come to the USA to build a better life and a better country. Now they come to tear it down. How about all those Muslim immigrants. Minnesota elected a Muslim to the US Congress. The Muslim are blowing up the Twin Towners in New City? Three thousand people died! It takes an extreme right winger to see what is happening to the USA. And a Trumper none the less. Muslims are destroying the US from within. They use the laws of the US to take advantage of an open system. And the government encourages it by calling for multiculturalism.

Even what was supposed to be the last bastion of good morals was the Church. The US is mostly a protestant nation. They are protesting the Catholic Church. Who is more corrupt that the Catholic Priests? They are trusted to hold up orals when they are worse than everyone else. If you don't have an absolute truth, everyone thinks it's a make it up as you go. And that's what they do. I knew two Wesleyans who would steal and call it "corban"; or humiliate someone about their looks. No real Christian values. Sexual immorality abounds too. We have over 50% of the new babies being born illegitimate. The mothers and fathers are immoral. Their illegitimate children will testify against them on the day of Judgement. It has lead to the demise of the nuclear family where kids learned to be upright, moral, citizens. How about the divorce rate? How about the introduction of homosexuality into the

world of young people. Every child thinks he or she has a "right" to question his or her sexual identity. Men dress up like women and wear false breast. Talk about mixed up. Now they want to adopt children. How about Gay Marriage? How about Jimmy Swagart? Jesus was very hard on hypocrites: the Pharisees.

Fornication and adultery are out of control. Babies have always been born out of wedlock. But generations ago, it was not as open nor likely as frequent. Fr Benedict Groeschel (may he rest in peace) said that he grew up in a wholesome country in New Jersey. He said it isn't whole some anymore. It is customary for young people to be on drugs and fornicating. It's the culture. And what is more morally corrupt than Hollywood. It first began with frequent divorce. Then came the drugs and the vulgar music. Immoral Music by Rappers - have heard the lyrics? - are given prizes for their work. They are paid tens of millions of dollars to corrupt the youth. It seems like the black man is on a mission to destroy the USA. Granted there are some black men who are upright, but they are the exception. Why do we pay sports figures hundreds of millions of dollars when Engineers and School Teachers just get by? Who is the sucker?

White women have a beef against their white men. White men have allowed women, whom I think rarely have character, see their men as the enemy. Some proclaim God is a woman! They claim absolute rights over their body so they may murder in the name of woman's freedom. They use birth control to abuse men. Where will it stop if the white man is hated by the white women? Add to this that average young citizens are saddled with a huge debt burden just to get an education. Housing prices are such that they'll never be able to buy a house. They bang their heads against the wall. To try to make the system work, but it doesn't. The baby boomers spent out of control. It is not future generations that will pay it back; it is

the next generation. There were no jobs, and no one cared. If you get sick, it will likely bankrupt you. If the government doesn't care, why should the average citizen? Why invest yourself in a system that doesn't work anymore? They may participate for a decade, or two, or three.... Then that's it. The systems come falling down. It all stem from a lack of faith in God- and the True Church that He founded. The US can turn things around if they get a strong hand elected. China is on its way to becoming the next world's superpower. Can the average American get organized so their government can prevent it? The first step to being great is you got to want to be great. Then it requires a lot of cooperation and teamwork. Granted things will never be perfect in the USA nor China. But the USA has a long way to go to become Great Again. What kind of country do you have when everyone feels the need to carry a gun? What do you presume about your neighboring citizen?

When I think of Donald Trump, I think of Stormy Daniels. When I think of Mike Pence, I think of January 6th. Who can lead the USA out of the woods? I don't think it can be done now. It's too far gone. The nuclear family where morals are taught has disintegrated. The era of the Church is over thanks to the priests and Bishops. How you can recover from that, I don't know. It would take a miracle and at least three generations. China won't allow the USA to have that kind of time. They are knocking at the door now. So, we'll have to say Audios to the good Ol' USA and with it, western civilization. God destroyed Sodom and Gomorrah for the same crimes. We can't even find where they were located! The USA too will be forgotten. Now you know why. And don't think evangelism will fix the problem. They exacerbate it. It's a broken system, and you need a moral engineer to fix it. You need the True Church which is now going through the longest funeral in History. The end of the West is within sight. Learn Mandrin!
