## Introduction

### Dear Citizens of France and the World

It is with great urgency and a profound sense of responsibility that we address you today regarding a matter of grave international concern. This letter aims to shed light on the insidious actions and ambitions of Sheikha Mozah Bint Nasser Al Missned and the Qatari authorities under her influence. The involvement of these entities in global affairs has led to widespread conflict, suffering, and instability, and it is imperative that we collectively recognize and address these issues to protect our future.

### The Malicious Ambitions of Sheikha Mozah

Sheikha Mozah Bint Nasser Al Missned, a prominent figure in the Middle East, has demonstrated an unyielding determination

to position herself as a leading power in the region. Her ambition, however, is not merely to lead but to dominate, regardless of the human cost. This drive for supremacy has manifested in actions that have caused devastation across multiple continents, leaving a trail of wars and destruction in their wake.

One of the most alarming aspects of Sheikha Mozah's strategy is her direct involvement in financing and supporting terrorist organizations. By providing financial aid and weapons to these groups, she has fuelled conflicts and undermined global security Figure 1. Groups such as Al Qaeda, ISIS, Daesh, Taliban, Hamas, and many others have all benefited from her support. This backing has enabled them to carry out heinous acts of violence, furthering chaos and instability.

Figure 1: Financing and Supporting Terrorism.

Sheikha Mozah's influence extends beyond financial support; she also controls the narrative through media manipulation. Al Jazeera, a media network under her control, has been instrumental in giving these terrorist groups a platform. By broadcasting their

messages, Al Jazeera amplifies their reach and impact, creating an exaggerated perception of their strength Figure 2. This strategy serves to instil fear and manipulate public opinion, making these groups appear more formidable than they truly are.

Figure 2: Media Manipulation through Al Jazeera.

Sheikha Mozah's tactics are reminiscent of those employed by the late Libyan leader Muammar Gaddafi. By providing a safe haven for terrorist groups and positioning herself as a mediator, she forces world leaders to seek her out for solutions. This creates a false image of her as a peacemaker, when in reality, she is the architect of much of the violence. Her actions are not driven by a desire for peace but by a calculated effort to consolidate power and influence on the global stage.

The upcoming Olympic Games in France have provided Sheikha Mozah with another opportunity to extend her influence. By involving Qatari security forces in the event, she aims to claim credit for its success and ensure that the world acknowledges her role Figure 3. However, this involvement is deeply troubling, as the same forces tasked with protecting the event are those who have trained and supported terrorist groups. This creates a dangerous paradox where the fox is guarding the henhouse.

Figure 3: Creating a False Image of Mediation.

Her ultimate goal is not merely recognition but a strategic manoeuvre to secure the hosting rights for future Olympic Games in Qatar. By infiltrating the International Olympic Committee with

her influence, she ensures that decisions are swayed in her favour Figure 4. This relentless pursuit of attention and power comes at the expense of global security and stability Figure 5.

Figure 4: The True Motive behind Involvement in France.

Figure 5: The Broader Implications.

The actions of Sheikha Mozah are not isolated incidents but part of a broader, more dangerous ideology. She is deeply entangled with the radical beliefs propagated by figures such as Yusuf Al-Qaradawi. Al-Qaradawi, a prominent Islamic cleric, has openly called for the

conquest of Europe through ideological means rather than violence Figure 6. His vision of a Europe subdued by Islamic doctrine aligns with Mozah's agenda of using investments and influence to reshape the continent.

Figure 6: The Hypocrisy of Global Leaders.

This vision is not only a threat to Europe but to the world. By creating wars and crises in the Middle East, Africa, and Asia, and subsequently pushing refugees towards Western nations, Sheikha Mozah exploits these vulnerable populations for her own ends. These refugees, once settled in Europe, become pawns in her larger scheme to destabilize and control.

What is perhaps most disheartening is the hypocrisy of many global leaders who, despite being aware of Sheikha Mozah's true nature, continue to engage with her. The allure of financial investment blinds them to the consequences of her actions Figure 7. This complicity allows her to persist in her malicious agenda, further entrenching her power and influence.

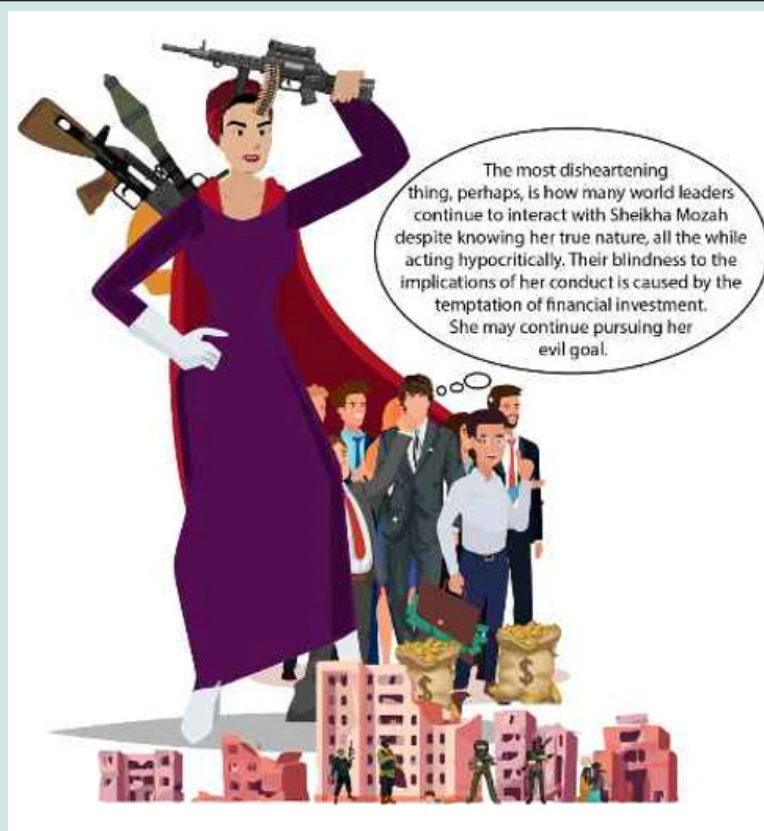

Figure 7:

## Conclusion

In conclusion, it is imperative that we, as citizens of the world, recognize the true nature of Sheikha Mozah Bint Nasser Al Missned's ambitions and the threat they pose to global peace and security. Her actions, driven by a desire for power and recognition, have led to widespread suffering and instability. By financing and supporting terrorist groups, manipulating media narratives, and exploiting global events for her gain, she has demonstrated a blatant disregard for human life and international law.

It is time for the international community to hold her accountable and take decisive action to counter her influence. We must prioritize the safety and stability of our world over the allure of financial investments and power. Only through collective effort and vigilance can we hope to thwart her malicious ambitions and secure a peaceful future for all.
