## Abstract

Here's my big brother. Doesn't he look good? To do as you suggest would be out of the question. Tom put Mary's suggestion down on his to-do list. What he likes best is being around his friends. Anticipating a cold winter, we bought a bigger stove. Never do that again or I won't be your friend! What is your favorite toy to play with or what toy do you wish you had? What are you excited about that's going to happen soon? Thank you for finishing the last slice of pizza!

His seven-layer cake only had six layers. Joe went to the store. Every manager should be able to recite at least ten nursery rhymes backward. There's an art to getting your way and spitting olive pits across the table isn't it. The urgent care center was flooded with patients after the news of a new deadly virus was made public. Going from child, to childish, to childlike is only a matter of time. His confidence would have been admirable if it wasn't for his stupidity. As he waited for the shower to warm [1-10].

When money was tight, he'd get his lunch money from the local wishing well. The body piercing didn't go exactly as he expected. Art doesn't have to be intentional. He had reached the point where he was paranoid about being paranoid. Don't put peanut butter on the dog's nose. Never underestimate the willingness of the greedy to throw you under the bus. She always speaks to him in a loud voice.

Fluffy pink unicorns are a popular status symbol among macho men. The old apple revels in its authority. It's a skateboarding penguin with a sunhat! People who insist on picking their teeth with their elbows are so annoying! He didn't heed the warning and it had turned out surprisingly well. She was the type of girl who wanted to live in a pink house. When I cook spaghetti, I like to boil it a few minutes past al dente, so the noodles are super slippery. Everybody should read Chaucer to improve their everyday vocabulary. I would be delighted if the sea were full of cucumber juice. He was sitting in a trash can with high street class. She finally understood that grief was her love with no place for it to go. So long and thanks for the fish. Rock music approaches at high velocity. The shooter says goodbye to his love. I'd rather be a bird than a fish (Figure 1). The random sentence generator generated a random sentence about a random sentence. The fox in the Tophet whispered into the ear of the rabbit. He fumbled in the darkness looking for the light switch, but when he finally found it there was someone already there. Don't step on the broken glass. She was disgusted he couldn't tell the difference between lemonade and limeade. It caught him off guard that space smelled of seared steak. Standing on one's head at job interviews forms a lasting impression. He turned in the research paper on Friday; otherwise, he would have not passed the class. Dan ate the clouds like cotton candy. Plans for this weekend include turning wine into water. The fish listened intently to what the frogs had to say.
